Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

Claims 1,9 and 10 are objected to because of the following informalities: In claim 1, line 5 change "that" to - - wherein - - and in line 9 change "form as" to -- -forms a - -
In claim 9, line 13 "form as" is not clear. In claim 10, line 18 after "out" insert – such - -..
Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1 it is not clear as to how the treatment layer that is provided on the inner surface of the breast support acts as a treatment barrier between the breast surface and the inner surface when the treatment layer is the inner surface. In claim 10 the treatment support bra with the surface has not been provided .

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Spanel et al (US 2,797,415).

Spanel et al discloses a bra support with a latex surface that is integral in the bra including securing means 23,24 and straps 11 and 12. (See Spanel et al, col 2, line 10 – 3, line 59 and figures 1 and 3). The treatment interior layer of the bra has a curvature as claimed and is made of natural, latex. The layer is integral with the bra since the bra is made of the latex and is on the inner surface. Applicant has not claimed the bra as being formed of a material with an applied latex layer.

Claims 9-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The bra support structure must be added to claim 9. The bra support structure itself has not been properly claimed only melting the treatment solution itself has been claimed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
